CHOICE IRISES

GROWN AT

Sunnyside Gardens

L. Merton Gage

Natick, Massachusetts

**IRISES GROWN AT
SUNNYSIDE GARDENS
NATICK, MASS.**

I am listing this year with brief descriptions 190 Tall Bearded Iris, and 10 Siberian varieties; also 60 varieties, not described, that I am offering at 15 cents each to close out, as limited garden space will not allow me to grow the cheaper varieties, even though many of them are the equal of the more expensive kinds. You will recognize in this list of 60, many really fine irises, and many of the old favorites that are still good. I have added to this year's list 50 varieties of recent introduction selected for QUALITY from best offered by the specialists in Europe and America. I am introducing this year another fine seedling from Mr. Lapham, the Indiana hybridist; a lovely pink and white iris he has named "Eloise Lapham." This iris was highly recommended by Mr. Cooley, who saw it in all its glory in Mr. Lapham's garden last Spring, and it was in bloom in my garden when he visited me in June. (See A. I. S. Bulletin No. 38, page 46.) In this natal year of our first great President, George Washington, another great (?) event is happening in my young (65 years) life. I am making my debut as an iris breeder, introducing a dainty little white sibirica which I have registered under the name of "Snowcrest. I have been breeding Gladiolus, for several years, until recently, and have several pretty good ones that have found favor with the Glad fans, and I have a particularly fine red one that may be introduced next year. If you are interested in glads, come and see this new one which will be in bloom about the second week in August. And, of course, we will want you to visit our Iris Gardens at Iris Time. I am at home and in my gardens Sundays, Tuesdays and Wednesdays, and am always glad to see visitors. Telephone 1141-J.

READ CAREFULLY BEFORE SENDING YOUR ORDER

My stocks of some varieties are not large, so early orders are advisable. Send in your order with 25% of the amount, and balance at time of shipment, and I will hold them for you. All orders must be accompanied with cash, but if to be sent C. O. D., remit 25% when ordering.

SUNNYSIDE GARDENS

Are located on both sides of Harvard Street Extension, a short terminal of Harvard Street. Take North Avenue at North Main Street, turn into Rice Street, and keep on to end of street, and bear to the left. House Garden at No. 3, Sawin Street, immediate vicinity.

THE AMERICAN IRIS SOCIETY

Join the AMERICAN IRIS SOCIETY, and you will receive Four Bulletins each year chock-full of valuable information and interesting reading. Each new member also gets the book, *IRISES FOR THE BEGINNER*. Send in your Application with \$3.00, to Mr. J. B. Wallace, Jr., 129 Church Street, New Haven, Conn.

CULTURAL DIRECTIONS are sent free with every order, and with every order amounting to \$5.00 or more, we give you *BETTER GARDENING*, a complete handbook of suggestions and instructions for the home gardener, by Harry R. O'Brien, nationally known writer on garden and farm topics.

PRICES

We are making a general reduction in prices this year, and especially low in all cases where we have a large stock of a variety. Such varieties as Aphrodite, Ann Page, Alabaster, Evadne, Gold Imperial, Germaine Perthuis, Labor, Magnificent, Mary Gibson, Mildred Presby, Majestic, Morning Splendor, Mrs. Marian Cran and Odaroloc, that only three or four years ago sold at from \$5.00 to

\$10.00 each, are now listed in this catalog at from 25 cents to \$1.00, and they will 'hold their own' with most of the newer ones today.

SUBSTITUTES

If any varieties you have ordered are not in stock, your money will be returned, unless you REQUEST that we substitute some similar variety as good or better.

POSTAGE

Postage will be prepaid on all orders amounting to \$2.00. All orders for less than \$2.00, send 25 cents extra for cost of postage and packing. Orders for less than \$1.00 are not accepted. We begin shipping about the middle of July, and up to the first of September. For the southern states until the middle of October.

SEEDLINGS

I will have a few hundred seedlings that will bloom for the first time this year, and around 40 that I have been growing under observation from one to three years. I would like your opinion of them.

INTRODUCTIONS FOR 1932

Eloise Lapham

(Lapham) (Gage 1932)

Aphrodite X Pink Seedling. — Standards are broad and arched; Milk White flushed pink. Falls broad, flaring and well rounded; heavily shaded pink. 3 to 5 branching, with 6 to 10 large blooms.
